Tiny Gardens

by Asha

A balcony, one metre deep

Start with what survives

Herbs forgive mistakes

Tomatoes do not

Light is the real budget

Pots: bigger than you think

Water in the morning

Bees found us in week three

The basil wars

Vertical is free space

Compost in a shoebox

Neighbours start talking

Seeds swap, people meet

Winter: the quiet season

Garlic in November

What failed (most of it)

What grew (enough)

Your window counts

Go plant something
